SNS Sub-Contractors:

Piping Supply Company is proud to be the successful bidder on the Directed Procurement subcontract for Pipe, Valve, and Fitting commodities on the SNS project.

Be assured that we at Piping Supply are totally committed to effectively servicing your PVF requirements, so that our respective companies might enjoy a mutually profitable relationship.

Piping Supply has been in business for over 35 years, serving contractor and industrial accounts within a 100-150 mile radius of Chattanooga. We have an industrial PVF inventory of approximately \$1 million in our local warehouse. Our sister company, American Municipal Supply, services the AWWA, underground utility market, and has product inventory of over \$900,000. We have a fleet of eight trucks to effect daily shipments to the jobsite as required.

On this CD, you will find our pricing structure as submitted to Knight/Jacobs on subcontract F5-2681-01-S01-1056. The files are in PDF or XLS format (Adobe 4.0 or greater or MS Excel 2000 will be required to open and print files). The "Price Sheet / Multiplier" file identifies, by product group, the appropriate list price sheet and applicable multiplier for each commodity. If you prefer, you can fax or email your BOM to our office and we will promptly provide you with unit pricing per the contract as submitted. We want to make it easy for you to do business with Piping Supply!

Contact information is as follows:

| | | |
|--------------------|---------------------------------------------------------------------|-------------------|
| Piping Supply | Telephone: 423-698-8996 | Fax: 423-698-8529 |
| Chris Warren | email: chris@pipingpvf.com | Cell 423-593-0102 |
| Jim Coulter | email: jim@pipingpvf.com | |
| American Municipal | Telephone: 423-622-2121 | Fax: 423-622-2170 |
